Environmental Policy

Adaptive Web Limited is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.

Existing activities:

- Carbon Neutral server hosting
- All computers use Energy Star / auto-shutdown
- All paper and plastic are recycled via Magfern Recycling
- All equipment is recycled via EasyWeee or PCB (local computer recycling company)
- City centre offices enable a large proportion of staff to travel to and from work on foot, cycle or public transport

Signed by the Senior Director of the Company

Dan Frost
Managing Director
